Independent Auditor's Report

The Honorable Mayor,
City Council and Clerk Treasurer
City of Glyndon, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City of Glyndon, Minnesota as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the basis of accounting described in Note 1; this includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

www.eidebailly.com

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by the City on the basis of financial reporting provisions permitted by the Minnesota Office of the State Auditor, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the City as of December 31, 2015, or changes in financial position and, where applicable, cash flows thereof for the year then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, and each major fund of the City, as of December 31, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with the basis of accounting described in Note 1.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City’s financial statements as a whole. The listing of elected and appointed officials, budgetary comparison schedule – cash basis – general fund, statement of receipts, disbursements, and changes in fund balances – cash basis (nonmajor governmental funds), statement of receipts, disbursements, changes in fund balance – cash basis (general fund, by department), schedule of accounts receivable, and schedule of accounts payable are presented for purposes of additional analysis and are not a required part of the financial statements.

The budgetary comparison schedule – cash basis – general fund statement of receipts, disbursements, and changes in fund balances – cash basis (nonmajor governmental funds), statement of receipts, disbursements, changes in fund balance – cash basis (general fund, by department), schedule of accounts receivable, and schedule of accounts payable are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The listing of elected and appointed officials has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report dated May 25, 2016 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. This report is an integral part of a *Government Auditing Standards* audit in considering the City's internal control over financial reporting and compliance.

Note 1 - Summary of Significant Accounting Policies

The City's financial statements are prepared using accounting practices prescribed or permitted by the State of Minnesota Office of the State Auditor, which practices differ from accounting principles generally accepted in the United States of America. Governmental fund financial statements are reported using the cash basis and proprietary fund financial statements are reported on the full accrual basis. The more significant accounting policies used by the City are discussed below.

Reporting Entity

The City's financial statements include all funds and account groups for which the City is financially accountable.

The City is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Additionally, the City is not included in any other governmental reporting entity.

Component units are legally separate organizations for which elected officials of the primary government are financially accountable. The City is financially accountable if it appoints a voting majority of the organization's governing body and is either:

1. able to impose its will on that organization or
2. there is potential for the organization to provide specific financial benefits to, or impose financial burdens on the City. The City may be financially accountable if an organization is fiscally dependent on the City.

There are no component units reported within these financial statements.

Government-Wide and Fund Financial Statements

The goal of government-wide financial statements is to present a broad overview of government's finances. The basic statements that form the government-wide financial statements are the statement of net position and the statement of activities. The effect of interfund activity has been removed from these statements. Governmental activities, which are normally financed through taxes and intergovernmental revenues, are reported separately from business-type activities, which are normally financed through user fees and charges for goods or services.

The statement of activities reports gross direct expenses by function reduced by program revenues. This results in a measurement of net revenue or expense for each of the government's activities. Direct expenses are those that are clearly identifiable with a specific function. Program revenues are directly associated with the function or business-type activity and include 1) charges for services and 2) operating or capital grants and contributions that are restricted to a particular function. Tax and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are prepared for governmental funds and proprietary funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

Governmental funds financial statements are reported using the cash basis. Under this method, revenues are recognized only when the City receives cash, and expenditures are recognized only when the City disburses cash. For the cash basis funds, schedules of accounts receivable and accounts payable are displayed separately for informational purposes.

Proprietary funds are accounted for using the accrual basis of accounting. The revenues are recognized when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The City reports the following major governmental funds:

General Fund – The general fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Street Improvements Fund – The City accounts for cash receipts and disbursements relating to capital projects activities for street improvements.

G.O. Improvement Bonds of 2007 Fund – The City accounts for cash receipts and disbursements related to the debt service on these bonds, which were issued for the Stockwood development.

The City reports the following major proprietary funds:

Water Fund – The City accounts for revenues and expenses relating to the furnishing of water service to residents of the City in this fund.

Sewer Fund – The City accounts for revenues and expenses relating to the furnishing of sewer service to residents of the City in this fund. The general property taxes and special assessments levied to retire the bonded indebtedness relating to the construction of the sewer system are also accounted for in this fund.

Amounts reported as program revenues include the following: amounts received from those who purchase, use or directly benefit from a program; amounts received from parties outside the City that are restricted to one or more specific programs; and earnings on investments that are legally restricted for a specific program. Revenues that do not meet the previous criteria are reported as general revenues, including all taxes.

Proprietary funds report operating revenues and expenses separately from nonoperating items. Operating revenues and expenses generally result from providing services or producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the costs of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, and then unrestricted resources as they are needed.

Other Significant Accounting Policies

Cash and Investments

The City maintains cash pools that are used by substantially all of the City funds. The City considers cash equivalents to include cash, savings accounts, and money market accounts. These are separately held for each fund and are stated at fair value. Investments consist of asset backed securities, mutual funds, preferred securities, and certificates of deposits with original maturities of over three months. These are separately held for each fund and are stated at fair value as of the balance sheet date.

Cash with Fiscal Agent

In the GO Improvement Bonds of 2007 fund, a portion of the proceeds from the issuance the 2014 General Obligation Bond are to be used to refund the General Improvement Bonds of 2007 when they are available to be paid. These funds will be held as cash with fiscal agent until the debt is callable during 2016. In addition, the cash with fiscal agent held in the capital projects and water funds are unspent bond proceeds which will be used for capital projects during 2016.

Receivables

All receivables are shown net of any allowance for uncollectibles, if applicable. There were no allowances recorded in the proprietary funds as of December 31, 2015.

Capital Assets

Capital assets of the proprietary funds are stated at cost if purchased or at fair market value on the date received if donated, less accumulated depreciation. Major renewals and improvements are charged to the capital asset accounts and depreciated accordingly. Replacements, maintenance, and repairs are expensed currently. When items are disposed of, the cost and accumulated depreciation are eliminated from the accounts and any gain or loss is recognized at that time.

Depreciation is provided for the capital assets of the proprietary funds using the straight-line method over the estimated useful life of 50 years.

The City's threshold amount for determining which purchases to include in the capital assets is items greater than \$5,000.

Compensated Absences

Vacation is earned at the following rates for full time employees: 1) during the first year of employment: 56 hours of vacation are earned; 2) beginning the second year of employment: 96 hours are earned; 3) beginning the third year, and each year thereafter, 8 additional hours are added to the vacation earned rate until a maximum of 225 hours per year is reached. The maximum vacation earned is reached in the 12th year of employment. Vacation is accrued in the proprietary funds and is considered long-term for reporting purposes. In all other funds, vacation is recorded as an expenditure when used.

Sick pay is earned and may be accumulated by City employees up to 130 days. Employees can use 33 percent of unused sick leave for severance pay upon retirement. Severance pay of 33 percent of sick pay is accrued in the water and sewer funds and is considered long-term for reporting purposes. In all other funds, sick pay is recorded as an expenditure when used.

Fund Equity

The following classifications describe the relative strength of the spending constraints:

- Nonspendable fund balance – amounts that are not in nonspendable form (such as inventory) or are required to be maintained intact.
- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- Committed fund balance – amounts constrained to specific purposes by the City itself, using its highest level of decision-making authority (i.e., City Council). To be reported as committed, amounts cannot be used for any other purpose unless the City takes the same highest level action to remove or change the constraint.
- Assigned fund balance – amounts the City intends to use for a specific purpose. Intent can be expressed by the City Council or by an official or body to which the City Council delegates the authority.
- Unassigned fund balance – amounts that are available for any purpose. Positive amounts are reported only in the general fund.

Net Position

Net position represents the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources in the City's financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any long-term debt attributable to the acquisition, construction, or improvement of those assets. Restricted net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Unrestricted net position is the net amount of assets, deferred by outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

Property Taxes

Property tax levies are set by the City Council in October each year and are certified to Clay County for collection in the following year. In Minnesota, counties act as collection agents for all property taxes.

The county spreads all levies over assessable property. Such taxes become a lien on January 1 and receivable by the City at that date. Property taxes may be paid by taxpayers in two equal installments, on May 15 and October 15. The county provides tax settlements to the City in April, June, and November.

Special Assessments

Special assessments are levied against the benefited properties for the assessable costs of special assessment improvement projects in accordance with state statutes. The City usually adopts the assessment rolls when the individual projects are complete or substantially complete. The assessments are collectible over a term of years generally consistent with the term of years of the related bond issue. Collection of annual installments (including interest) is handled by the county in the same manner as property taxes. Property owners are allowed to prepay total future installments without interest or prepayment penalties. Special assessments are generally collected by county and remitted to the City at the same time property tax settlements are made.

Budgets

Annual budgets are adopted for the General Fund on the cash basis. Budgetary comparisons presented in this report are on this budgetary basis.

Appropriations are authorized by the City Council at the fund level, which are the legal levels of budgetary control. Administrative control is maintained through the establishment of more detailed line-item budgets. All unexpended appropriations lapse at year-end.

Any changes in the total budget of each fund must be approved by a majority vote of the City Council.

Note 2 - Deposits and Investments

Deposits

In accordance with Minnesota statutes, the City maintains deposits at those depositories authorized by the City Council. All such depositories are members of the Federal Reserve System.

The following is considered the most significant risk associated with deposits:

Custodial Credit Risk – This is the risk that in the event of a bank failure, the City’s deposits may be lost.

Interest Rate Risk – The City does not have a formal policy that limits investment maturities. However, the City does limit the maturities of certificates of deposit to less than one year as a means of managing its exposure to fair value losses arising from increasing interest rates.

Minnesota statutes require that all deposits be protected by federal deposit insurance, corporate surety bond, or collateral. The market value of collateral pledged must equal 110% of the deposits not covered by federal deposit insurance or corporate surety bonds. Authorized collateral includes treasury bills, notes, and bonds; issues of U.S. government agencies; general obligations rated “A” or better; revenue obligations rated “AA” or better; irrevocable standard letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral.

At December 31, 2015, all deposits were insured or collateralized by securities held by the City’s agent in the City’s name.

The following table presents the City's deposit and investment balances at December 31, 2015:

Investment Type	Fair Value	Investment Maturities (in Years)	
		Not Applicable	< 1
Certificates of deposit	\$ 250,000	\$ -	\$ 250,000
Deposits	1,084,124	1,084,124	-
	<u>\$ 1,334,124</u>	<u>\$ 1,084,124</u>	<u>\$ 250,000</u>

Investments

Minnesota statutes authorize the City to invest in obligations of the U.S. Treasury, agencies and instrumentalities, bankers' acceptances, certain repurchase agreements and commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record. As of and during the year ended December 31, 2015, the City did not have any investments.

Note 3 - Capital Assets

	Balance 12/31/14	Additions	Retirements	Balance 12/31/15
Capital assets not being depreciated				
Construction in progress	\$ 75,794	\$ 750,104	\$ -	\$ 825,898

The following is a summary of long-term debt as of December 31, 2015:

Type	Authorized and Issued	Final Year of Maturity	Interest Rate	Outstanding
Governmental activities				
Notes Payable				
Capital equipment	\$ 35,137	2018	4.50	\$ 20,972
General obligation bonds				
2007 Drainage Improvements	1,415,000	2025	3.85 - 4.45	1,035,000
2010 Drainage Improvements	135,000	2016	0.80 - 2.50	25,000
2014A Refunding Bond	1,995,000	2025	2.00 - 3.00	1,935,000
				<u>2,995,000</u>
General obligation special assessment improvement bonds				
Series 2000 Centennial and sewer improvement	175,000	2016	5.50 - 6.00	5,000
Total governmental activities				<u>\$ 3,020,972</u>
Business-Type Activities				
General obligation revenue bonds				
Clean water revolving fund	\$ 1,170,000	2030	1.09	\$ 819,000
Drinking water revolving fund	867,071	2022	2.38	351,070
2014B Water Revenue bonds	1,370,000	2035	3.00 - 3.25	1,370,000
				<u>2,540,070</u>
Capital lease				
Truck Lease	17,166	2018	2.49	15,451
Total business-type activities				<u>\$ 2,555,521</u>

Estimated principal and interest requirements to maturity will be as follows:

<u>Years Ending December 31,</u>	<u>Governmental Activities</u>		<u>Business-Type Activities</u>	
	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>
2016	\$ 1,192,030	\$ 68,290	\$ 148,424	\$ 58,749
2017	237,360	41,648	159,860	55,576
2018	231,582	36,468	160,167	52,227
2019	235,000	31,825	162,000	48,770
2020	185,000	27,460	164,000	45,214
2021 - 2025	940,000	67,930	693,070	174,779
2026 - 2030	-	-	648,000	105,185
2031 - 2035	-	-	420,000	34,938
	<u>\$ 3,020,972</u>	<u>\$ 273,621</u>	<u>\$ 2,555,521</u>	<u>\$ 575,438</u>

Notes Payable

In 2013, the City issued capital equipment notes for purchasing equipment. It is a five year note, has a fixed rate at December 31, 2015 of 4.5% and has monthly payments of \$656.

General Obligation Bonds

General obligation bonds are direct obligations and pledge the full faith and credit of the City. The general obligations issued for general government are payable from the debt service funds primarily through special assessments and property taxes levied and collected. The general credit of the City is obligated only to the extent that liens foreclosed against properties involved in the special assessment districts are insufficient to retire outstanding bonds.

During 2014 the City issued \$1,995,000 in general obligation bonds with interest rates ranging between 2-3.00%. The issuance of the bond related to two new projects, \$435,000 for street improvements and \$135,000 for equipment purchases and refunding of bonds. The City issued the bonds to refund the following outstanding debt obligations:

- General Improvement Bonds, Series 2004A
- General Improvement Bonds, Series 2007
- Government Lease/Purchase Agreement

Proceeds related to the Series 2007 bonds were deposited into an account classified as Cash with Fiscal Agent on the balance sheet. These funds will be used to pay off the Series 2007 bonds upon crossover refunding date during 2016. The refunding reduced total debt service resulted in an economic gain of \$88,094.

General Obligation Revenue Bonds

General obligation revenue bonds are payable from utility revenues and, if required, by ad valorem tax levies. The City issued \$1,370,000 in general obligation utility revenue bonds with interest rates ranging between 2-3.25%.

Capital Lease Payable

The capital lease is payable from utility revenues. During the year the City entered into a lease agreement for a vehicle that has a maturity date of August 6, 2018. The vehicle has a value of \$17,166 and accumulated depreciation as of December 31, 2015 of \$1,430.

Note 5 - Defined Benefit Pension Plans - Statewide

Plan Description

All full-time and certain part-time employees of the City of Glyndon, Minnesota are covered by defined benefit plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA administers the General Employees Retirement Fund (GERF) and the Public Employees Police and Fire Fund (PEPFF) which are cost-sharing, multiple-employer retirement plans. These plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356.

GERF members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. All new members must participate in the Coordinated Plan. All police officers, fire-fighters and peace officers who qualify for membership by statute are covered by the PEPFF.

PERA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by State Statute, and vest after three years of credited service. The defined retirement benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service.

Two methods are used to compute benefits for PERA's Coordinated and Basic Plan members. The retiring member receives the higher of step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2 percent of average salary for each of the first 10 years of service and 2.7 percent for each remaining year. The annuity accrual rate for a Coordinated Plan member is 1.2 percent of average salary for each of the first 10 years and 1.7 percent for each remaining year. Under Method 2, the annuity accrual rate is 2.7 percent of average salary for Basic Plan members and 1.7 percent for Coordinated Plan members for each year of service. For PEPFF members, the annuity accrual rate is 3.0 percent of each year of service. For all PEPFF members, and GERF members hired prior to July 1, 1989 whose annuity is calculated using Method 1, a full annuity is available when age plus years of service equal 90. Normal retirement age is 55 for PEPFF members and 65 for Basic and Coordinated members hired prior to July 1, 1989. Normal retirement age is the age for unreduced Social Security benefits capped at 66 for Coordinated members hired on or after July 1, 1989. A reduced retirement annuity is also available to eligible members seeking early retirement.

There are different types of annuities available to members upon retirement. A single-life annuity is a lifetime annuity that ceases upon the death of the retiree--no survivor annuity is payable. There are also various types of joint and survivor annuity options available which will be payable over joint lives. Members may also leave their contributions in the fund upon termination of public service in order to qualify for a deferred annuity at retirement age. Refunds of contributions are available at any time to members who leave public service, but before retirement benefits begin.

The benefit provisions stated in the previous paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

PERA issues a publicly available financial report that includes financial statements and required supplementary information for GERS and PEPFF. That report may be obtained on the web at mnpera.com, by writing to PERA at 60 Empire Drive #200, St. Paul, Minnesota, 55103-2088 or by calling (651) 296-7460 or 1-800-652-9026.

Funding Policy

Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. These statutes are established and amended by the state legislature. The City makes annual contributions to the pension plans equal to the amount required by state statutes. GERS Basic Plan members and Coordinated Plan members were required to contribute 9.1% and 6.5%, respectively, of their annual covered salary in 2015. PEPFF members were required to contribute 10.8% of their annual covered salary in 2015. The City is required to contribute the following percentages of annual covered payroll: 11.78% for Basic Plan members, 7.25% for Coordinated Plan members, and 16.2% for PEPFF members. The City's contributions to the Public Employees Retirement Fund for the years ending December 31, 2015, 2014, and 2013 were \$39,830, \$37,905, and \$35,984, respectively. The City's contributions were equal to the contractually required contributions for each year as set by state statute.

Note 6 - Statement of Orders Issued

The City posts its City Council meetings monthly so Schedule 5, Statement of Orders Issued, is not required for the Minnesota State Auditor's Office.

Note 7 - Construction Commitments

The City has active construction projects as of December 31, 2015. The projects relate to building a new water tower and street and drainage improvements. At year-end, the City had expended \$825,898 on the water tower project and the remaining commitment is expected to be \$539,102. At year-end, the City had expended \$386,164 on the street and drainage improvement project and the remaining commitment is expected to be \$2,983,773. Both projects are anticipated to be completed during 2016.

Note 8 - Stockwood Development

During the year ended December 31, 2015, the City purchased parcels of land in the Stockwood Development and was required to pay the unpaid special assessments in the amount of \$240,300. Subsequent to year-end, the City received remittance from Clay County for the total paid special assessments on the property of \$243,162.

Independent Auditors Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable Mayor,
City Council and Clerk Treasurer
City of Glyndon, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining funds of the City of Glyndon, Minnesota, as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated May 25, 2016.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies 2015-A, 2015-B, and 2015-C described in the accompanying schedule of findings to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency 2015-D described in the accompanying schedule of findings to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

City's Response to Findings

The City's responses to the findings identified in our audit are described in the accompanying schedule of findings. The City's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on *Minnesota Legal Compliance*

The Honorable Mayor,
City Council and Clerk Treasurer
City of Glyndon, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, business-type activities, and each major fund of the City of Glyndon, Minnesota, as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated May 25, 2016.

The *Minnesota Legal Compliance Audit Guide for Political Subdivisions*, promulgated by the State Auditor pursuant to Minn. Stat. §6.65, contains six categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, and miscellaneous provisions. Our audit considered all of the listed categories.

In connection with our audit, nothing came to our attention that caused us to believe the City failed to comply with the provisions of the *Minnesota Legal Compliance Audit Guide for Political Subdivisions*. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the City's noncompliance with the above referenced provisions.

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this communication is not suitable for any other purpose.

Section I – Financial Statement Findings

Material Weakness

2015-A Segregation of Duties

Condition – The City has a lack of segregation of duties due to a limited staff.

Criteria or Specific Requirement – A good system of internal control requires an adequate segregation of duties so that no one individual has incompatible responsibilities. No one person should have more than one duty relating to the authorization (approval), custody of assets (check signers), record keeping, and reconciliation functions.

Effect – Inadequate segregation of duties could adversely affect the City’s ability to detect misstatements in amounts that would be material in relation to the financial statements in a timely period by employees in the normal course of performing their assigned functions.

Cause – There is a limited number of office employees involved in the internal control process.

Recommendation – While we recognize that your staff may not be large enough to permit complete segregation of duties in all material respects for an effective system of internal control, the functions should be reviewed to determine if additional segregation of duties is feasible and to improve the efficiency and effectiveness of financial management and financial statement accuracy for the City. Segregation of authorization, custody of assets, record keeping and reconciliation functions would assist in mitigating the risk of fraud or misstatements to the financial statements.

Management’s Response – Due to cost constraints, there will be no further administrative employees added.

Corrective Action Plan (CAP)

1. Action Planned in Response to the Finding – No action is planned on the finding. The City feels that the additional costs to the City would not be significantly beneficial. The City does mitigate this through the Council’s review of the draft financial statements, accompanying notes and review and approval of the monthly expenses.
2. Explanation of Disagreement – There is no disagreement with the audit finding.
3. Official Responsible for Ensuring Corrective Action – None. See #1 above.
4. Planned Completion Date for the Corrective Action – None. See #1 above.
5. Plan to Monitor Completion of Corrective Action – None. See #1 above.

Material Weakness

2015-B Material Journal Entries

Condition – During the course of our engagement, we proposed numerous material audit adjustments that would not have been identified as a result of the City’s existing internal controls, and therefore could have resulted in a material misstatement of the City’s financial statements.

Criteria or Specific Requirement – A good system of internal accounting control involves sufficient training of personnel to foster an adequate system for recording and processing entries material to the financial statements. In addition, a good system also involves adequate oversight by the Council.

Effect – This control deficiency could result in a material misstatement to the financial statements that would not be prevented or detected.

Cause – The City does not have an internal control system designed to identify all necessary adjustments.

Recommendation – The accounting staff and Council or council member should attend training and/or consult with a professional to identify and correct the inadequacies.

Management’s Response – The City will make an effort to review and reconcile all accounts in future years.

Corrective Action Plan (CAP)

1. Action Planned in Response to the Finding – Management and Council will make an effort to identify and correct the inadequacies.
2. Explanation of Disagreement – There is no disagreement with the audit finding.
3. Official Responsible for Ensuring Corrective Action – Cecil Johnson, Mayor, is responsible for ensuring corrective action plan of the material weakness.
4. Planned Completion Date for the Corrective Action – August 31, 2016.
5. Plan to Monitor Completion of Corrective Action – The City Council will monitor the accounting function.

Material Weakness

2015-C **Preparation of Financial Statements**

Condition – The City does not have an internal control system designed to provide for the preparation of the financial statements being audited. The auditors were requested to, and did, draft the City’s financial statements and accompanying notes to the financial statements.

Criteria or Specific Requirement – A good system of internal accounting control contemplates the ability to internally prepare their financial statements.

Effect – The financial disclosures in the financial statements could be incomplete.

Cause – The City does not have an internal control system designed to provide for the preparation of the financial statements being audited.

Recommendation – This circumstance is not unusual in a City of your size. It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations.

Management’s Response – Due to cost constraints, the City will continue to have the auditors draft the financial statements and accompanying notes to the financial statements.

Corrective Action Plan (CAP)

1. Action Planned in Response to the Finding – No action is planned on the finding. The City feels that the additional costs to the City would not be significantly beneficial. The City does mitigate this situation through the review of the draft financial statements and accompanying notes to the financial statements by management.
2. Explanation of Disagreement – There is no disagreement with the audit finding.
3. Official Responsible for Ensuring Corrective Action – None. See #1 above.
4. Planned Completion Date for the Corrective Action – None. See #1 above.
5. Plan to Monitor Completion of Corrective Action – None. See #1 above.

Significant Deficiency

2015-D No Council Approval of Expenditures

Condition – During the course of our engagement we noted several instances of expenditures that were not approved by Council.

Criteria or Specific Requirement – A good system of internal accounting control contemplates an adequate system for ensuring all City expenditures are reviewed and approved by Council.

Effect – The control deficiency could result in improper purchases.

Cause – The City does not have an internal control system designed to ensure all expenditures are reviewed by Council.

Recommendation – The Council should review all expenditures.

Management’s Response – The City will make an effort to have the Council review all disbursements.

Corrective Action Plan (CAP)

1. Action Planned in Response to the Finding – Management and Council will make an effort to review and amend budgets in future years.
2. Explanation of Disagreement – There is no disagreement with the audit finding.
3. Official Responsible for Ensuring Corrective Action – Cecil Johnson, Mayor, is responsible for ensuring corrective action plan of the significant deficiency.
4. Planned Completion Date for the Corrective Action – August 31, 2016.
5. Plan to Monitor Completion of Corrective Action – The City Council will monitor the accounting function.
