ARVIG DIGITAL CONVERSION

Arvig will be starting a project in the area that will upgrade your television service into a high-quality, all-digital format. This new format improves picture quality and allows them to expand their channel lineup in the future. Televisions with digital QAM tuners are compatible with Arvig's digital TV service. If your TV doesn't have a QAM tuner, Arvig will have digital-to-analog (DTA) converter boxes available for lease. Arvig will be notifying the residents in Glyndon concerning this conversion, so please open any material you receive in the mail from Arvig in the upcoming months.
